## KEEP AN EYE ON THE RAIN WITH BEAUTIFUL DESIGN

- - keep track of the rainfall with the Eva Solo Rain gauge

In recent years, Eva Solo has launched a wide range of products for the garden which are all characterised by their superior functionality and high-quality design. From the outset, the rain gauge has been a strong product in the Outdoor collection, and is now being relaunched in a new and improved design.

With the Eva Solo Rain gauge, you can now keep track of how much rain has fallen without marring the overall visual appeal of your garden. In fact, the sleek, sculptural look of the rain gauge will further underline any stylishly designed outdoor area. It beautifully supplements Eva Solo's existing garden products which, among other things, include bird tables and bird feeders.

It is straightforward to empty, and is frost-proof, so it does not need to be brought in for the winter. The rain gauge is dishwasher-safe.
